

## BobWIRE EDM Version 19

Features include : Easy CAD design with wireframe geometry, planar surfaces and solids.

- Easy file import supporting DXF, IGES and STEP.
- Automatically extract cutting geometry from solid and surface models.
- Custom cutting options for 2 or 4 axis wire parts.
- Automatic G-Code generator including a Run-Time calculator for both 2 or 4 axis programs.
- Complete RS 232 Communications.
- Customizable CAM interface.
- Solid Model & part rendering.
- Customizable post processors are available including Agie 4 axis controls.
- Auto approach/Depart, Auto deburr and Glue Gap options.

You will find that the NEW BobWIRE 2 & 4 axis CAD-CAM system rivals the more expensive systems in functionality while keeping the cost down, making this system the best Wire EDM CAD-CAM system in the world for the cost! Download the demo now and give it a test drive using one of the built-in added example files.
